

# Emma Gee steals the show at HACC

The M<sup>c</sup>Arthur team were privileged to attend the ASM HACC Conference in Geelong where a wide range of current Aged Care topics and issues were presented and discussed.

As usual the event was informative and interesting, but the real highlight was without doubt keynote speaker Emma Gee. Emotional, humbling, moving – represented just a few of the comments on the night regarding Emma's presentation. A truly inspirational story, Emma suffered a stroke at the young age of 24 and has turned her experience into a positive, life-affirming approach to resilience and client centred care.

M<sup>c</sup>Arthur works closely with Emma and we have partnered with her on several sponsorships including the Moonee Valley Council Volunteers Awards.
