keynotes | workshops | consultancy

Emma Gee is an acclaimed international inspirational speaker, offering her thoughts and solutions on person centred care and resilience in all her services.

As an occupational therapist and a stroke survivor, Emma has a rare insight into life as a patient and therapist and is a compelling example of what it takes to step into another's shoes and truly bounce back in life.

Through her inspiring presentations and in her memoir, Reinventing Emma, she is able to both captivate and challenge her audiences to consider what IS possible in their own lives, both personally & professionally.

*It's not what happens to you,
it's how you choose to deal
with it that matters!*
